PROFESSIONAL SUMMARY

Results-driven logistics professional with proven ability to manage air, sea and road import operations into Nepal. Experienced in communicating with international freight forwarders, handling the shipping process from origin to destination, and facilitating customs documentation and compliance. Working towards a Bachelor of Computer Applications with a mix of logistics knowledge and strong digital, analytical and problem-solving skills. Concentrated on enhancing Nepal and International trade connectivity and promoting economic growth through cost-effective and tech-enabled logistics solutions.

WORK EXPERIENCE

Logistics & Operations Officer | Team Global Logistics Pvt LTD, Kathmandu *Dec 22 2024 – Present*

- Manage the entire import process from start to finish for various client accounts, including air freight, ocean freight and road freight
- Served as primary contact for international freight forwarders – booking, tracking, documentation and issue resolution of shipments
- Manage all Nepal imports including customs documentation, duty calculations and regulatory compliance
- Successfully executed multiple large-scale import projects, ensuring on-time delivery and cost efficiency
- Build and maintain strong working relationships with international logistics partners, reducing gaps in communication and process
- Coordinate with local customs agents, port authorities and internal stakeholders to ensure smooth cargo clearance.

EDUCATION

Bachelor of Computer Applications | Citizen College, Kathmandu *2022 – 2026 (Expected)*

- Final semester — specialization in information technology, software development, and information systems
- Relevant coursework: e-business, economics, artificial intelligence, database management, web development, networking, and software engineering

SKILLS

Logistics

Air freight · Ocean freight · Road freight · Import operations · Customs documentation

Trade

Nepal–International freight coordination · Supply chain management · Freight negotiation · Cross-border compliance

Technology
